Let's Start!

Extreme weather experiences!

Learning Outcome

Understand actions, events, and experiences in present, past or future and in spoken or written texts and in work and social contexts.

Ask your partner:

- Have you ever experienced extreme weather? What kind?
- When was the last time the weather destroyed one of your plans?

Can Do Statements

- I can talk about relationships, character traits, beliefs and opinions.
- I can express uncertainty about past events.
- I can express the cause and effect of an action or an event.

Let's Explore!

What are we waiting for? Let's **get the show on the road***.

* "Getting the show on the road" means to hurry and start something.

Instructions: Read the text aloud.

- Manager:** Sorry folks. The weather outside must have knocked out a power line. Consequently, we have a temporary power outage, but there is no need to leave as we have plenty of candles. For this reason, you can continue playing your games and enjoying your beverages and snacks while we wait for the power to come back on. The staff is coming around to your tables and passing out some candles.
- Amy:** So? What do you guys want to do? Do you want to stay or venture out and try to get back home?
- Peter:** Well, the power is out in the area and there's a blizzard outside. For this reason, I think we should stay. I think it's safer to stay indoors.
- Vanessa:** The servers all lit the candles; as a consequence, it's cozy in here now. We should stay. I'm enjoying the atmosphere in here now.
- Peter:** There go the fire trucks. A tree must have fallen on a power line.
- Vanessa:** Or the weight of the snow and the wind might have snapped the power pole.
- Amy:** Haa. I'm saying a car might have lost control and hit the power line.
- Peter:** Ooo. Good one. How about Godzilla may have stepped on a transformer as he shuffled through the city earlier this evening; as a consequence the power is out for the entire Boston area.
- Amy:** Let's not be macabre people. It's a nasty evening out here, consequently someone might be having a more perilous evening than us.
- Peter:** Perilous! Nice word. Perfect for a double-letter score.
- Vanessa:** Yes, I agree. Let's get this show on the road.

Let's Practice!

Time for you to practice speaking. Can you express cause and effect?

Instructions: Read the sentences aloud. Check your pronunciation with your instructor.

1. Consequently, we have a temporary power outage.
2. For this reason, you can continue playing your games and enjoying your beverages and snacks.
3. For this reason, I think we should stay.
4. The servers lit all the candles; as a consequence, it's cozy in here now.
5. As a consequence, the power is out for the entire Boston area.
6. It's a nasty evening out there; consequently, someone might be having a more perilous evening than us.

Let's Practice!

Are you sure you know what happened?

Instructions: Classify the phrases into the correct category.

- I'm enjoying the atmosphere in here now.
- The weight of the snow and the wind might have snapped the power pole.
- Godzilla may have stepped on a transformer as he shuffled through the city earlier this evening.
- The weather outside must have knocked out a power line.
- I'm saying a car might have lost control and hit the power line.
- Well, the power is out in the area, and there is a blizzard outside.
- Perfect for a double-letter score.

Expressing Uncertainty

Other

Extension Activity

Give a presentation on a type of extreme weather.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- With the class, brainstorm the different types of extreme weather.
- Select one form of extreme weather and give a 3-5 minute PowerPoint presentation about it.
- Use pictures to help describe your type of extreme weather.
- Talk about the places where this type of weather is most common.
- Ask for feedback.

Self-Assessment

Yes No

I brainstorm different types of extreme weather vocabulary.

☐ ☐

I create an interesting and informative PowerPoint presentation.

☐ ☐

I give feedback and accept feedback.

☐ ☐

Target Words

- **power line** (noun): a cable carrying electrical power
e.g. The weather outside must have knocked out a power line.
- **cozy** (adjective): giving a feeling of comfort, warmth, and relaxation
e.g. The servers lit all the candles; as a consequence, it's cozy in here now.
- **to snap** (verb): to break completely and suddenly, often with a loud cracking sound
e.g. The weight of the snow and the wind might have snapped the power pole.
- **transformer** (noun): an apparatus for reducing or increasing the voltage of an alternating current
e.g. Godzilla may have stepped on a transformer as he shuffled through the city earlier this evening.
- **to shuffle** (verb): to walk by dragging one's feet along
e.g. He shuffled through the city earlier this evening.
- **macabre** (adjective): causing shock and fear because connected with death; especially strange or cruel death
e.g. Let's not be macabre people.
- **perilous** (adjective): dangerous
e.g. Someone might be having a more perilous evening than us.

Learning Points

Perfect Modals: Review

You use **must, may, might, can't** and **couldn't** with a **Present Perfect** verb form to show how certain you are that a past situation happened or didn't happen. These are called **Perfect modals**.

Refer to the chart for the Perfect modals and their uses:

Perfect Modal	Perfect Modal	Meaning/Use	Example
Affirmative	must have	demonstrates a high degree of certainty that something happened in the past - 99% certain	<i>The history students did really well on the exams. All of them must have studied a lot.</i>
	may, might and could have	demonstrates about 50% or less certainty that something happened in the past	<i>My wife isn't answering the phone. She may (might, could) have gone shopping.</i>
Negative	can't or couldn't have	demonstrates very strong certainty that something didn't happen in the past	<i>Rob looks tired today. He can't have slept well last night.</i>
	may or might not have	demonstrates about 50% or less certainty that something didn't happen in the past	<i>I may not have seen the movie before. I don't remember.</i>

Examples:

- A tree **must have fallen** on a power line.
- Or the weight of the snow and the wind **might have snapped** the power pole.
- I'm saying a car **might have lost** control and **hit** the power line.
- The weather outside **must have knocked** out a power line.

Learning Points

Cause and Effect: Consequently + Clause

When you want to show the connection between two clauses, you can use **consequently** to introduce the result. This word helps the reader or listener make the connection between the main idea in one clause, and the idea in the next clause.

For example:

*People helped. **Consequently**, the mess was cleaned up.*

You can see that it acts as a transition from one sentence to the next.

Examples:

- **Consequently**, we have a temporary power outage, but there is no need to leave as we have plenty of candles.
- Godzilla may have stepped on a transformer as he shuffled through the city earlier this evening; **consequently** the power is out for the entire Boston area.
- The servers lit all the candles; **consequently**, it's cozy in here now.
- **Consequently**, I think we should stay.
